

## **Pop Tab Partner Program**

### **What do you do with the pull tabs?**

We recycle them and turn them into cash. The money we collect goes towards the purchase of something that all of our families are able to enjoy during their stay. Our collection program has generated enough funds that we have been able to purchase a BOSE Wave Radio, hot dog cooker machine, public computer, digital camera and two decorated Christmas trees that are displayed during the holiday season. We are currently saving up for a piece in our new outdoor space coming with our expansion.

### **Why not the can also?**

Cans are messy and take up much more space. Pull tabs are clean, compact and easy to collect. In addition, the aluminum in the tab is higher-grade and has a higher recycling value.

### **Do I need a special container?**

No! Any clean container will work. A large Ziploc bag, plastic snack or milk container or 2-liter bottles are all great things to collect the tabs in and another way to recycle. We do have labels for these types of containers...free!

### **Do we need to collect a certain amount or count them?**

NO! Although some schools will make a math or science project out of collecting a million, we'll take as many as you collect. Whether it's ten, one thousand or one million!

### **We've collected a whole bunch. Now what?**

You can drop them off or mail them to the House. If you will be dropping them off give us a call to schedule a tour of the House during your visit.

### **Pull Tab Facts**

- 1 inch = 1 tab
- 1 pound = 1,267 tabs
- 1 foot = 12 tabs
- 789 pounds = 1 million tabs
- 1 yard = 36 tabs
- 1 ton = 2,534,000 tabs
- 1 meter = 40 tabs
- 1 kilometer = 40,000 tabs
- 1 mile = 63,360 tabs
