

Pop Tab Partner Program

What do you do with the pull tabs?

Metalico Annaco of Akron comes and picks them up from us and recycles them for cash! The money we collect goes towards the purchase of things that all our families can enjoy during their stay. Some of the items our collection program has allowed us to purchase are BOSE Wave Radio, hot dog cooker machine, public computers, digital camera, decorated Christmas trees that are displayed during the holiday season and some of our playground equipment on our newly expanded outdoor space.

Why not the can also?

Cans are messy and take up much more space. Pull tabs are clean, compact and easy to collect. In addition, the aluminum in the tab is higher-grade and has a higher recycling value.

Do I need a special container?

No! Any clean container will work. A large Ziploc bag, plastic snack or milk container or 2-liter bottles are all great things to collect the tabs in and another way to recycle. We do have labels for these types of containers...free!

Do we need to collect a certain amount or count them?

NO! Although some schools will make a math or science project out of collecting a million, we'll take as many as you collect. Whether it's ten, one thousand or one million!

We've collected a whole bunch. Now what?

You can drop them off in our new donation drop zone or mail them to the House. If you will be dropping them off give us a call to schedule a tour of the House during your visit.

Pull Tab Facts

- 1 inch = 1 tab
- 1 pound = 1,267 tabs
- 1 foot = 12 tabs
- 789 pounds = 1 million tabs
- 1 yard = 36 tabs
- 1 ton = 2,534,000 tabs
- 1 meter = 40 tabs
- 1 kilometer = 40,000 tabs
- 1 mile = 63,360 tabs
